Professional summary

As a dedicated and passionate Full MERN Stack Web Developer, I have cultivated a strong foundation in front-end development through hands-on experience and academic projects. My technical expertise includes HTML5, CSS3, and modern JavaScript (ES6+), with a particular focus on React.js for creating dynamic and responsive user interfaces. I am proficient in using tools like Git for version control and am well-versed in Agile methodologies, allowing me to collaborate effectively in team environments.

My experience includes developing and deploying web applications, integrating RESTful APIs, and ensuring cross-browser compatibility. I have a keen eye for detail and a commitment to writing clean, maintainable code. Additionally, my problem-solving skills and ability to quickly learn new technologies make me a valuable asset to any development team. I am eager to leverage my skills and continue growing as a full stack developer.
